- New Shipyard Brochure
- JDN Trade Fairs

## Tip of the Month

In a few weeks the JDN Photo Award will end. Take part and take the chance to win one of the attractive prizes. Learn more on <http://www.jdn.de/photo2007>.

## JDN in Application

JDN Air Hoist Profi 37 TI mounting a pipe string in a shaft. At the end of this work the Profi has to position a 1000 m long string with a total weight of 30 t.

## JDN General Catalogue

The new JDN General Catalogue is now available in the following languages: English, Spanish, Russian and German.

## New JDN Shipyard Brochure

JDN Air Hoists have been used successfully in the shipyard, on and offshore industry for decades.

Compared with electrical hoists JDN Air Hoists have a wide application range: Installation or disassembly of rudder blades, propellers, drive shafts or general installation work on new ships.

With this brochure we introduce to you on eight pages the JDN Air Hoists and Winches which are predestined for this jobs.

The brochure is available in English and German. Please ask for your requested quantity.
